ABOUT ME

I'm Muhammad Nabeel, A curious mind forged in Dubai, sharpened in Karachi, and fueled by a relentless drive to innovate. As a Computer Science undergrad at Salim Habib University, I've fused my passion for AI, sustainable development, and digital storytelling into real-world projects, from designing AI-powered systems and chatbots to extracting banana fiber for eco-friendly textiles.

With a knack for prompt engineering, leadership honed through MUN diplomacy, and a flair for event hosting and digital marketing, I thrive where creativity meets logic. Whether it's building scalable tech or creating content through my platform Dream Rizq, I bring bold ideas to life with grit, empathy, and a touch of ambition.

SKILLS

- Artificial Intelligence & Prompt Engineering
- Web & App Prototyping
- Chatbot Development (Vercel, GPT APIs)
- Digital Marketing & Branding
- Leadership & Public Speaking
- Research & Analytical Writing
- Event Hosting & Coordination
- UI/UX Design (Figma, Canva)
- Technical Documentation & Content Creation
- Cross-Disciplinary Project Execution (Medical, Textile, Business, etc.)
- Multilingual Communication (Fluent English – Written & Verbal, Urdu, Conversational Arabic)
- n8n
- Vapi
- Flowise
- MAKE

EDUCATION

Bachelor of Science - Computer Science

Iqra University (2022-2023)
Salim Habib University (2027)

Gen AI & Chatbot Dev

S.M.I.T (2025)

Intermediate, Computer Science

Sir Adamjee Institute (2022).

Schooling

Indian School R.A.K

EXPERIENCE

AI &AUTOMATION INTERN – NOSH AI

Oct 2025 - Present

Karachi, Pakistan

- Develop advanced AI agents for seamless communication, including chat, calls, and efficient task management
- Design and implement sophisticated, user-friendly websites
- Establish comprehensive automation systems to streamline and enhance operational processes

AI Chatbot Developer

Dec 2024 - Jan 2025

Karachi, Pakistan

- Designed and deployed a university-specific chatbot using Vercel and GPT APIs.
- Automated FAQs and student query handling with scalable natural language workflows.
- Improved response efficiency and student engagement through real-time AI assistance.

FOUNDER & CONTENT CREATOR – DREAM RIZQ

Jan 2025 - Present

Karachi, Pakistan

- Built and managed a personal finance platform tailored for students and freelancers.
- Created viral content using AI tools for monetization, side hustles, and digital branding.
- Leveraged content marketing and social strategy to grow an online following.

RESEARCHER – BANANA FIBER EXTRACTION PROJECT

Aug 2023 -

Feb 2024

Research – Karachi, Pakistan

- Engineered a chemical-based method (lye solution) to extract banana fibers for sustainable textiles.
- Conducted comparative studies on fiber blends, tensile strength, and environmental impact.
- Pitched the project as a potential alternative for eco-conscious manufacturing.
